- Embrace and practice continuous improvement and systematic problem-solving methodologies such as **5 Why**, **8D** and **5S**
- Other duties as assigned

Minimum Qualifications

- High School and one (1) year of experience in electronics assembly or manufacturing
- Proficiency with manual soldering of electronic components
- Experience with safe operation of power hand tools and automatic soldering equipment
- Strong problem-solving capabilities
- Ability to communicate effectively both verbally and in writing
- Strong interpersonal skills and a team-oriented attitude
- Ability to accept and adapt to change in a positive nature

We Offer:

- 401k Plan with employer match.
- Company Profit Sharing.
- Insurance Plans for Medical, Vision, Dental.
- Paid Holiday leave, vacation, and personal time.

Reasons to Join Our Team

- We are a growing leader in the vehicle services and diagnostics market.
- Newly created opportunity with outstanding growth potential.

About Drew Technologies

Drew Technologies is a business unit of **Opus Vehicle Services**, which is a division of **Opus Group**. **Opus Group** is a publicly-held Swedish corporation with operations worldwide.

For over 20 years, we have set ourselves apart from any other J2534 diagnostic and reprogramming devices available on the market. **Drew Technologies** recently introduced the award-winning **RAP® (Remote Assisted Programming)** service. **RAP®** is designed to assist automotive repair and collision technicians with programming vehicles. In a nutshell, **DrewTechs'** core competency is "talking to vehicles".
