

Low-cost OBDII IM Readiness Monitoring Tool

IMREADY®

IMready®
#IMREADY-01

Help your customers know when their car is ready to return for their follow-up emissions test. Simply install the low cost IMready® tool into the customer's car after you repair it. When the light turns green, the car is ready!

Displays in three LEDs in a "stoplight" configuration:

Red = Does not pass emissions test

Yellow = Emissions test is running/in process

Green = Ready to pass emissions test
